On 25th June 2025

The Human Library is a method that connects people through communication and encourages them to embrace new ideas, eliminate prejudices, and adopt positive approaches in life.

HUMAN LIBRARY

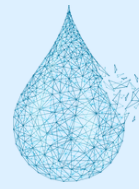

ENGINEERING EDUCATION RESEARCH CENTER

In July 2000, at the Roskilde Music Festival, the "Stop Violence" organization lent out 75 living "books" or "Human Books" and achieved significant success, earning positive recognition from society. This initiative ultimately gave birth to the concept of the Living Library.
